

Windows

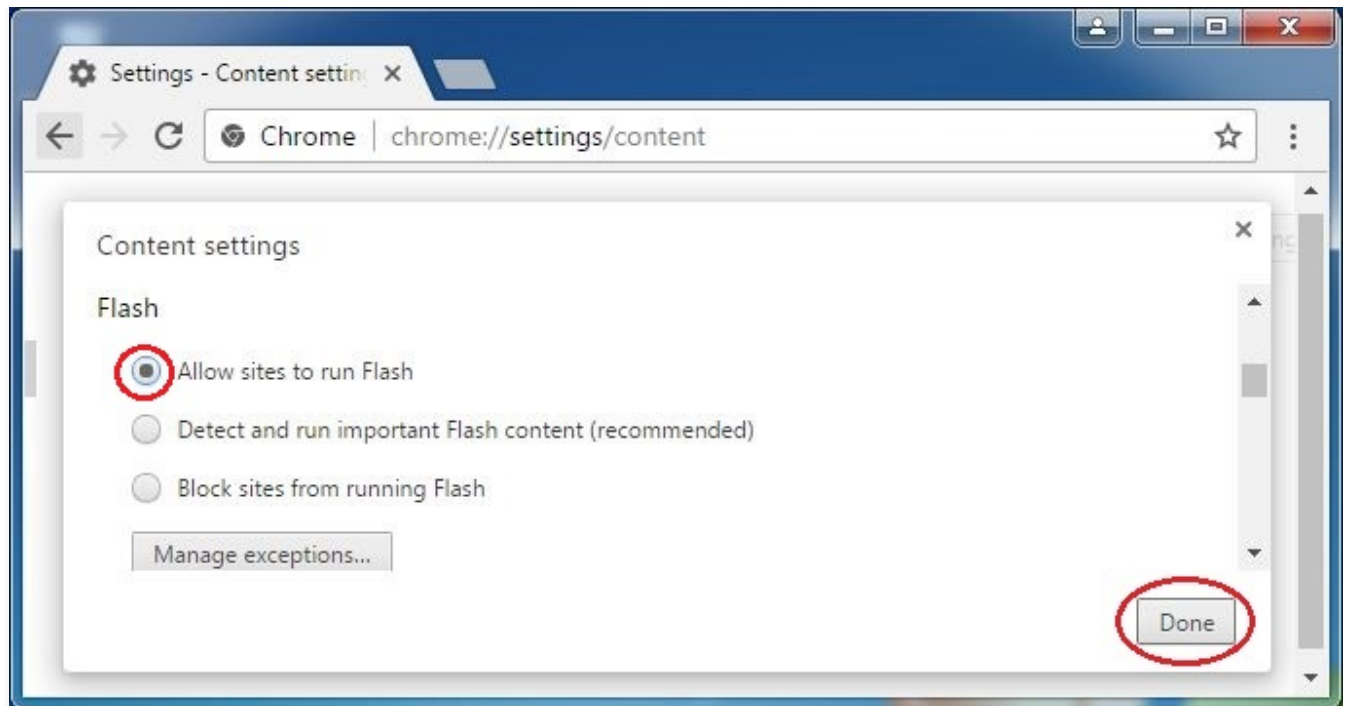

1. In the address bar, type **chrome://settings/content**

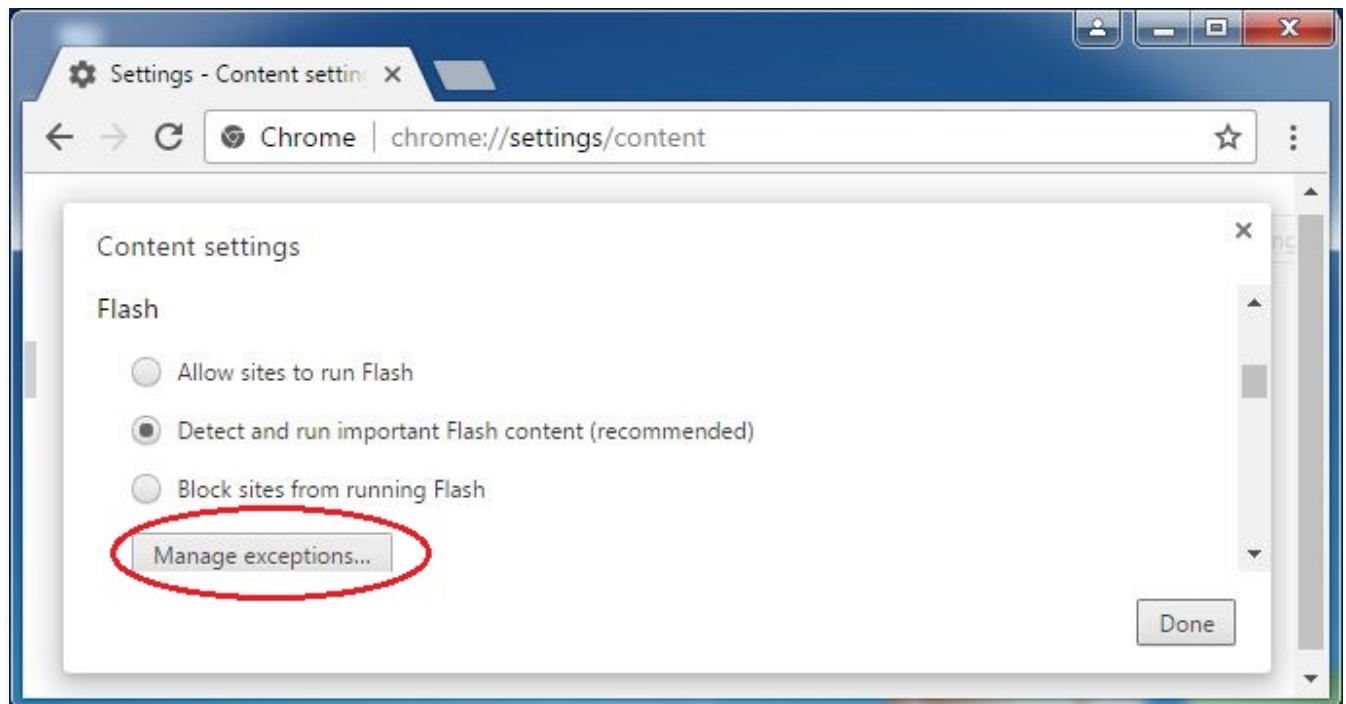

2. On the **Content settings** screen, find the Flash Player listing. Check the status.

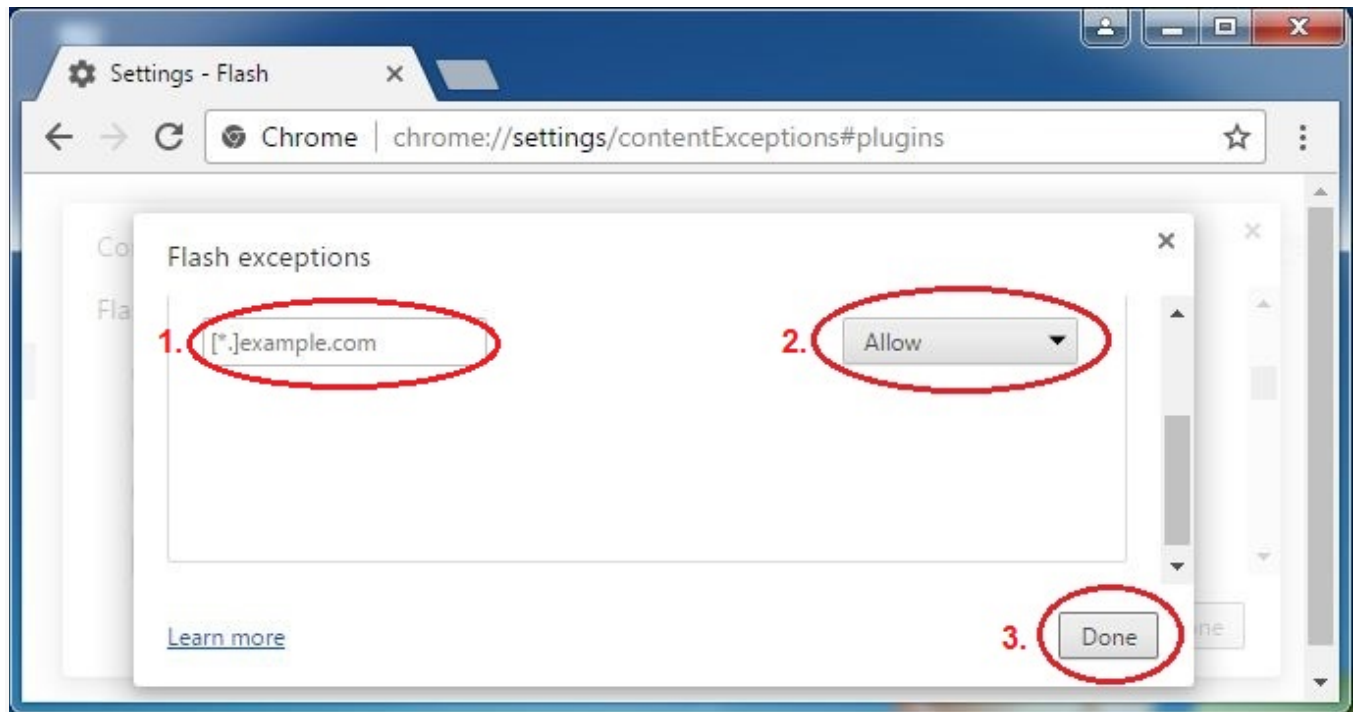

3. Select **Allow sites to run Flash**, and then click **Done**.

4. To manage Flash Player settings by site, click **Manage exceptions**.

5. On the **Flash exceptions** screen, enter the website domain and then choose **Allow**. When finished adding sites, click **Done**.

6. Close the **Content settings** screen.
