The Illinois CPA Society's Governmental Report Review Committee has adapted the Government Finance Officers Association's <u>Comprehensive General-Purpose Checklist</u> ©2001, 2006, 2008, 2015, 2018, 2020 & 2022 (designed for its Certificate of Achievement for Excellence in Financial Reporting Program; used with permission) for its own use in fulfilling its mission to improve governmental financial accounting and reporting by Illinois CPAs. This checklist incorporates all GASB standards through GASB Statement 100 – Accounting Changes and Error Corrections.

The Society would like to thank the current and former members of the Governmental Report Review Committee for their assistance and contributions to this particular checklist. Please send comments and suggestions to guajardoo@icpas.org.

This review consists of four stages: I. Overall cursory review (for order and completeness); II. Detailed statement and note review (page by page); III. The Independent Auditors' Report; and IV. Wrap-up or general questions, based on I thru III, is the report complete and correct?

RELATING THE AUDITORS' REPORT TO FINANCIAL PRESENTATION DEPARTURES

The question numbers coded A, B, C, D & M relate to the questions in the checklist for which "no" answers may be indicative of financial presentation departures which, if significant enough, require an Auditors' Report modification. Checklist questions answered "no" with these codes indicate financial presentation departures as follows:

- A. missing statement(s).
- B. missing fund type
- C. component unit disclosure omissions.
- D. other significant reporting exceptions.
- M. Management Discussion and Analysis deficiencies

Some of the questions are significant individually, so that a "no" answer signals that a modification to the opinion would be expected. That would apply to most of the questions coded A or B. For others, mainly the ones coded C or D, while individual "no" answers represent important errors of commission or omission, they may not require a modification unless there is a cumulative effect from several questions on a common topic. The reviewer will have to exercise judgment as to the significance of the individual or cumulative errors.

For purposes of classifying a pension/OPEB plan as single-employer or multiple-employer, a primary government (PG) and its component units (CUs) are considered one employer. [GASB-S73:15; COD P22.108] For purposes of stand-alone financial reporting in that circumstance, the PG and the CUs are required to apply measurement requirements similar to those applied by a governmental non-employer contributing entity in a special funding situation. [GASB-S73:B25] The checklist has indicated disclosures specific to this situation as **stand-alone reports**. All other disclosures would apply.

10.150	For single-employer reports: provide the number of employees covered by the benefit
	terms in total and separately for 1) inactive employees (or their beneficiaries) currently
	receiving benefits, 2) inactive employees entitled to, but not yet receiving benefits, and
	3) active employees?
10.151	Do the notes indicate that there are no assets accumulated in a GASB compliant trust? If
	pensions/OPEB are provided through a pension/OPEB plan that is administered through
	a trust and that trust does not meet the criteria of GASB codification P22.101 and
	P52.101, each criterion that the trust does not meet should be disclosed.
10.152	Identify the authority under which requirements for the employer and non-employer
	contributing entities, if any, to pay pensions/OPEB as the benefits come due are
	established or may be amended? Also, do the notes include the amount paid by the
	employer for pensions/OPEB as the benefits came due during the reporting period, if not
	otherwise disclosed?

Pension/OPEB Plan Issues Separate Report (If the Plan doesn't issue a separate report, skip to Question 10.210)

The notes should indicate whether the separate information for the plan is available as a stand-along financial report that the plan issues or the plan is included as a fiduciary fund in another government's report (e.g., the report of a public employee retirement system or another government). The disclosure about how to obtain the report can be addressed by various methods that include providing a link to the report on the public employee retirement system's website, providing contact information (e.g., e-mail address, telephone, or mailing address), or providing the office location of where the report can be obtained.

	individual benefit plan should be included within the notes so that data for each benefit
	plan is included within the scope of the audit. [GASB-S34:106; COD 2200.196]

The notes should include all disclosures required of such stand-alone plans (regardless of the type of plan)? The disclosure requirements for such benefit plans in the absence of a separately issued report (which should be merged with the sponsoring governments employer disclosures to avoid duplication) are as follows: [GASB-S67:30; GASB-S68:43, 79, and 112; GASB-S74:34: GASB-S75:54, 95, and 132; COD P20.143, .181, .216; COD P50.151.195, .236; COD Pe5.126; COD Po50.128]

This set of questions would be used <u>for each plan</u> noted above. Therefore, if there is a "no" answer, the reviewer would have to note to which plan that "no" answer pertains to.

For purposes of classifying a pension/OPEB plan as single-employer or multiple-employer, a primary government (PG) and its component units (CUs) are considered one employer. [GASB-S73:15; COD P22.108] For purposes of stand-alone financial reporting in that circumstance, the PG and the CUs are required to apply measurement requirements similar to those applied by a governmental non-employer contributing entity in a special funding situation. [GASB-S73:B25] The checklist has indicated disclosures specific to this situation as **stand-alone reports**. All other disclosures would apply.

For single-employer reports: provide the number of employees covered by the benefit terms in total and separately for 1) inactive employees (or their beneficiaries) currently receiving benefits, 2) inactive employees entitled to, but not yet receiving benefits, and 3) active employees? 10.151 Do the notes indicate that there are no assets accumulated in a GASB compliant trust? Pension/OPEB Plan Issues Separate Report (If the Plan doesn't issue a separate report, skip to Question 10.210)

The notes should indicate whether the separate information for the plan is available as a stand-along financial report that the plan issues or the plan is included as a fiduciary fund in another government's report (e.g., the report of a public employee retirement system or another government). The disclosure about how to obtain the report can be addressed by various methods that include providing a link to the report on the public employee retirement system's website, providing contact information (e.g., e-mail address, telephone, or mailing address), or providing the office location of where the report can be obtained.

10.200	If the government is an employer or a non-employer contributing entity for a defined
	benefit pension/OPEB plan (regardless of its type) that is administered through a trust or
	equivalent arrangement, and the plan is reported as a pension (and other employee
	benefit) trust fund, and that plan issues a separate report, do the notes provide additional
	information? [GASB-S67:30; GASB-S68:43, 79 and 112; GASB-S74:34; GASB-
	S75:54, 95, and 132; COD P20.143, .181, .216; COD P50.151.195, .236; COD Pe5.126;
	COD Po50.128]
10.201	That the plan issues a separate publicly available report and how to obtain the report?
10.202	That the plan's fiduciary net position has been determined on the same basis used by the
	pension/OPEB plan?
10.203	The plan's basis of accounting, including the policies with respect to benefit payments
	(including refunds of employee contributions)?
10.204	How investments are valued?
10.205	Information about the substance and magnitude of significant changes that indicate the
	plan's disclosures generally do not reflect the facts and circumstances at the
	government's measurement date (if applicable)?

Pension (GASB 67) /OPEB (GASB 74) Plan Does Not Issue Separate Report (If the Plan issues a separate report, answer 10.200 through 10.205 above) All *Plan Types*.

10.210	Do the notes include financial statements for each such individual plan (regardless of
	the type of plan) if the individual fund statements that provide this information are not
	within the scope of the audit? If the independent auditor only takes in relation to
	responsibility for the individual fund statements, then the financial statements for each
	individual benefit plan should be included within the notes so that data for each benefit
	plan is included within the scope of the audit. [GASB-S34:106; COD 2200.196]

The notes should include all disclosures required of such stand-alone plans (regardless of the type of plan)? The disclosure requirements for such benefit plans in the absence of a separately issued report (which should be merged with the sponsoring governments employer disclosures to avoid duplication) are as follows: [GASB-S67:30; GASB-S68:43, 79, and 112; GASB-S74:34: GASB-S75:54, 95, and 132; COD P20.143, .181, .216; COD P50.151.195, .236; COD Pe5.126; COD Po50.128]
